

## Vertical Electric Hydraulic Power Pack

The uniquely designed Vertical Electric Hydraulic Power Pack is built on a compact and portable hand-cart frame. With its small footprint and very low weight, this power pack is easy to transport and maneuver. It is perfect for hand sawing or core drilling inside buildings, underground or in other enclosed spaces. The electric motor eliminates concerns about exhaust, fumes and fuel consumption, while also minimizing noise output. Since it is air-cooled, the WP-15EVA has the advantage that it can be run continuously without any water. This serves to extend the life of the pump.

### Features include:

- Small footprint of 24" x 19"
- Lightweight and portable
- 15 HP
- 460 V – 3 phase (230 V – 3 phase optional)
- Air to oil heat exchanger
- Automatic low hydraulic oil level shutdown
- Fully adjustable flow 0 to 12 gallons
- Heavy duty steel frame with powder coated finish
- Lifting eye and comfortable handles
- Solid 9" x 3" tires

### Compact Hydraulic Power Pack Specifications:

|                              | <b>WP-15E</b>      |
|------------------------------|--------------------|
| Electric Motor               | 15 HP Electric     |
| Flow                         | 0-12 gpm           |
| Maximum Pressure             | 2500 psi           |
| Relief Valve "Crack Setting" | 2000 psi           |
| Hydraulic Oil Capacity       | 2.5 gallons        |
| Size L x W x H               | 24"L x 19"W x 42"H |
| Weight                       | 300 lbs.           |
